

# 水 利 学 报

SHUILI XUEBAO

第 55 卷 2024 年 第 3 期(月刊)

## 目 次

|                                                      |  |
|------------------------------------------------------|--|
| 基于 CA-RL 的堆石坝填筑仓面碾压作业动态路径规划 .....                    |  |
| ..... 崔 博 钟 航 王佳俊 谭添文 林威伟 佟大威(253)                   |  |
| 协调公平与效率的“四水四定”研究 II:应用 .....                         |  |
| ..... 游进军 贾 玲 王彦兵 杨朝晖 汪 林 薛志春(266)                   |  |
| 面向流域治理与城镇发展统筹的城市水系统规划协同机制探讨——广东东莞生态园实证研究 .....       |  |
| ..... 王成坤 黄纪萍 王川涛 蔡姗姗 王俊佳 刘悦忆(278)                   |  |
| 城市新区极端雨洪汇流淹没特性与致灾机理调查研究——以郑州“7.20”特大暴雨(郑东新区)为例 ..... |  |
| ..... 刘明潇 朱勇杰 胡 昊 ZHANG Hao 孙东坡(288)                 |  |
| 侧式进/出水口顶板扩张角对拦污栅断面流速分布影响规律研究 .....                   |  |
| ..... 高学平 曾庆康 朱洪涛 刘殷竹(301)                           |  |
| 1956—2022 年鄱阳湖枯水情势演变及驱动机制分析 .....                    |  |
| ..... 熊 斌 卓云强 许崇育 熊立华 陈泽强 田逸飞(313)                   |  |
| 输水建筑物表面淡水壳菜防护涂层研发及适用性分析 .....                        |  |
| ..... 闫军涛 张社荣 马梓昇 张吉康 王 超 王泉华(325)                   |  |
| 高压水道钢筋混凝土夹心钢板衬砌研发与性能验证 .....                         |  |
| ..... 裴江荣 汪小刚 魏小令 刘和艺 陈天楠 刘立鹏(336)                   |  |
| 水泵水轮机 S 特性区能量损失及流动特性研究 .....                         |  |
| ..... 王李科 姚 亮 冯建军 朱国俊 卢金玲 阮 辉(344)                   |  |
| 黄河未来气候情景下冰情特征演变分析 .....                              |  |
| ..... 周中元 王 涛 孙亚翡 陈玉状 路锦枝(355)                       |  |
| 堰塞坝溃决参数及其寿命预测 .....                                  |  |
| ..... 冯震宇 杨兴国 周家文 廖海梅(367)                           |  |

# JOURNAL OF HYDRAULIC ENGINEERING

Vol . 55 No . 3 2024

( Monthly )

## CONTENTS

|                                                                                                                                                                                                            |  |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Dynamic path planning of rockfill dam warehouse surface rolling operation based on CA-RL .....                                                                                                             |  |
| ..... CUI Bo,ZHONG Hang,WANG Jiajun,TAN Tianwen,LIN Weiwei,TONG Dawei(253)                                                                                                                                 |  |
| Study on “water dominates development” based on equity and efficiency II ;application .....                                                                                                                |  |
| ..... YOU Jinjun,JIA Ling,WANG Yanbing,YANG Zhaohui,WANG Lin,XUE Zhichun(266)                                                                                                                              |  |
| Discussion on the coordination mechanism of urban water system planning for watershed management and urban development;An empirical study about Dongguan Ecological Industrial Park,Guangdong .....        |  |
| ..... WANG Chengkun,HUANG Jiping,WANG Chuantao,CAI Huahua,WANG Junjia,LIU Yueyi(278)                                                                                                                       |  |
| Survey research on characteristics of extreme rainstorm flood and disaster-causing mechanism in urban new district;Taking Zhengdong New District in Zhengzhou’s “7.20” heavy rainstorm as an example ..... |  |
| ..... LIU Mingxiao, ZHU Yongjie, HU Hao, ZHANG Hao, SUN Dongpo (288)                                                                                                                                       |  |
| Study on the influence of the expansion angle of the side inlet/outlet roof on the velocity distribution of the trash rack section .....                                                                   |  |
| ..... GAO Xueping, ZENG Qingkang, ZHU Hongtao, LIU Yin Zhu (301)                                                                                                                                           |  |
| Analysis on the evolution and driving mechanism of low flow regime from 1956 to 2022 in Poyang Lake, China .....                                                                                           |  |
| ..... XIONG Bin, ZHUO Yunqiang, XU Chongyu, XIONG Lihua, CHEN Zeqiang, TIAN Yifei (313)                                                                                                                    |  |
| Development and applicability analysis of protective coatings of <i>Limnoperna fortunei</i> on the surface of water conveyance buildings .....                                                             |  |
| ..... YAN Juntao, ZHANG Sherong, MA Ziao, ZHANG Jikang, WANG Chao, WANG Xiaohua (325)                                                                                                                      |  |
| Research and performance verification of high-pressure waterway reinforced concrete sandwich steel plate lining .....                                                                                      |  |
| ..... PEI Jiangrong, WANG Xiaogang, WEI Xiaoling, LIU Heyi, CHEN Tiannan, LIU Lipeng (336)                                                                                                                 |  |
| Energy loss and flow characteristics analysis of a model pump turbine in the S-shape region .....                                                                                                          |  |
| ..... WANG Like, YAO Liang, FENG Jianjun, ZHU Guojun, LU Jinling, RUAN Hui (344)                                                                                                                           |  |
| Analysis of the evolution of ice characteristics in the Yellow River under future climate scenarios .....                                                                                                  |  |
| ..... ZHOU Zhongyuan , WANG Tao, SUN Yafei, CHEN Yuzhuang, LU Jinzhi (355)                                                                                                                                 |  |
| Estimation of breach parameters and longevity of landslide dam .....                                                                                                                                       |  |
| ..... FENG Zhenyu, YANG Xingguo, ZHOU Jiawen, LIAO Haimei (367)                                                                                                                                            |  |
