

# 水 利 学 报

SHUILI XUEBAO

第 55 卷      2024 年      第 6 期 (月刊)

## 目 次

|                                               |  |
|-----------------------------------------------|--|
| 基于黄河流域系统治理的水库多目标调度约束阈值研究 .....                |  |
| ..... 田世民 江恩慧 王远见 赵高磊 景永才 李凌琪 (631)           |  |
| 考虑历史洪水资料的三峡水库运行期非一致性设计洪水估算 .....              |  |
| ..... 谢雨祚 郭生练 熊立华 王 俊 钟斯睿 杨媛婷 (643)           |  |
| 生态服务价值与社会经济因素交互影响下的流域生态补偿标准研究 .....           |  |
| ..... 张 剑 付意成 彭文启 赵进勇 朱启林 (654)               |  |
| 水资源集对系统中的对立关系分析 .....                         |  |
| ..... 金菊良 周亮广 崔 毅 汪明武 周戎星 潘争伟 (666)           |  |
| 圆端形墩台尾迹水动力特性开缝控制三维数值分析 .....                  |  |
| ..... 李东风 白福青 方志浩 张红武 胡建永 (675)               |  |
| 剪切大变形条件下心墙沥青混凝土渗透特性研究 .....                   |  |
| ..... 何建新 李 豪 杨 武 刘 亮 (686)                   |  |
| 适宜水工混凝土内环境的矿化微生物梯度驯化优选 .....                  |  |
| ..... 孟永东 徐晓蔚 丁 毅 王 宇 蔡征龙 田 斌 (698)           |  |
| 新型阻尼耗能式泥石流格栅坝的工作机制及理论计算方法 .....               |  |
| ..... 王永胜 郭文祥 张晓研 潘远文 王彦兵 (711)               |  |
| 利比亚德尔纳 2023 年极端洪水模拟复盘分析 .....                 |  |
| ..... 刘家宏 宋天旭 梅 超 王 佳 张克寒 (723)               |  |
| 排渗失效下尾矿库溃坝三维模型试验研究 .....                      |  |
| ..... 张力霆 马文君 刘雅帆 张少雄 周 玗 李 鑫 (735)           |  |
| 基于 UPEMD 融合 RCMCSE 和 ALWOA-BP 的水电机组故障诊断 ..... |  |
| ..... 李 想 钱 晶 曾 云 (744)                       |  |

# JOURNAL OF HYDRAULIC ENGINEERING

Vol . 55 No . 6 2024

( Monthly )

## CONTENTS

|                                                                                                                                       |  |
|---------------------------------------------------------------------------------------------------------------------------------------|--|
| Research on constraint thresholds for multi-objective scheduling of reservoirs based on Yellow River Basin system governance .....    |  |
| ..... TIAN Shimin JIANG Enhui WANG Yuanjian ZHAO Gaolei JING Yongcai LI Lingqi(631)                                                   |  |
| Non-stationary design flood estimation of Three Gorges Reservoir in operation period considering historical information .....         |  |
| ..... XIE Yuzuo GUO Shenglian XIONG Lihua WANG Jun ZHONG Sirui YANG Yuanting(643)                                                     |  |
| Watershed eco-compensation standard under the interaction of ecological service value & social economic factors .....                 |  |
| ..... ZHANG Jian FU Yicheng PENG Wenqi ZHAO Jinyong ZHU Qilin(654)                                                                    |  |
| Analysis of the opposition relationship in water resource set pair system .....                                                       |  |
| ..... JIN Juliang ZHOU Lianguang CUI Yi WANG Mingwu ZHOU Rongxing PAN Zhengwei(666)                                                   |  |
| Three dimensional numerical analysis of hydrodynamic characteristics of circular pier and abutment wake with slit control .....       |  |
| ..... LI Dongfeng BAI Fuqing FANG Zhihao ZHANG Hongwu HU Jianyong(675)                                                                |  |
| Permeability study of asphalt concrete in core wall under shear large deformation conditions .....                                    |  |
| ..... HE Jianxin LI Hao YANG Wu LIU Liang(686)                                                                                        |  |
| Gradient domestication and selection of mineralizing microorganisms suitable for the internal environment of hydraulic concrete ..... |  |
| ..... MENG Yongdong XU Xiaowei DING Yi WANG Yu CAI Zhenglong TIAN Bin(695)                                                            |  |
| Working mechanism and theoretical calculation method of novel damping energy dissipation debris flow grille dam .....                 |  |
| ..... WANG Yongsheng GUO Wenxiang ZHANG Xiaoyan PAN Yuanwen WANG Yanbing(711)                                                         |  |
| Retrospective simulation and analysis of 2023 extreme flood in Derna,Libya .....                                                      |  |
| ..... LIU Jiahong SONG Tianxu MEI Chao WANG Jia ZHANG Kehan(723)                                                                      |  |
| 3D model test study on dam-break of tailings pond under drainage failure .....                                                        |  |
| ..... ZHANG Liting MA Wenjun LIU Yafan ZHANG Shaoxiong ZHOU Ding LI Xin(735)                                                          |  |
| Fault diagnosis of hydropower units based on UPEMD integrating RCMCSE and ALWOA-BP .....                                              |  |
| ..... LI Xiang QIAN Jing ZENG Yun(744)                                                                                                |  |
